

# THE #1

# Royal Rest

## Orthopedic Neck Support Pillow - with scientific\* proof -

**NEW**

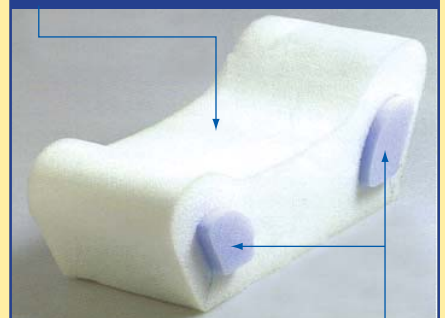

\* Royal Rest was proven outstanding and superior to all other pillows evaluated in an independent comparative scientific study by Persson L., Ph.D., RPT. and Moritz U., M.D., Ph.D., published in *JMPT 4/98 USA* (Journal of Manipulative and Physiological Therapeutics). **Conclusion of the study:** "A neck pillow with good shape and graded consistency may reduce neck pain and improve night rest. We found that a soft, not-too-high pillow with enough support for the cervical lordosis, created by separate cores, was the optimal type."

### Royal Rest winning features:

- ✓ **Unparalleled Comfort**  
- Combines soft and firm material in anatomical design.
- ✓ **Gentle Support**  
- Oval-shaped firm cores flexing in soft foam.
- ✓ **Cool and Fresh**  
- Maximum air circulation in open-cell cut foam for comfort.
- ✓ **Two sides**  
- High and low levels to suit all people.
- ✓ **Environmentally Friendly**  
- CFC-free and allergy tested  
- washable cores and covers.
- ✓ **Scientific Documentation**  
- Published clinical study.  
- CE-registration.

Pillow is cut from soft open-cell foam to maximise air circulation.

Firm oval-shaped cores support and give gentle relief to tense neck muscles
